Oct 2

Continue with lab:
- A groups start with part 2
- B groups start with part 3
- C groups start with part 1

Once you get your data (THE YELLOW BOXES IN THE EXCEL FILES) on parts 1 and 2, move on to the next part. Groups doing VPython section, when the Young’s modulus apparatus is free, start that part.

Analyze data and finish code outside of class.
Lab will be due next week.

You can start right away
